

The Story of the

FAIRPLAY CAFÉ

The Fairplay Café is a social enterprise empowering local mothers to run a kitchen in Payatas. In a community where malnourishment is so prevalent that a typical 12 year old will look like they're 8 years old, nutritious food is incredibly important. We started with just one mother cooking nutritious food for children at our drop-in center.

As Fairplay grew space became available to expand and the Café is now a dedicated space in the community, growing into a fully-fledged social enterprise. Four local mothers now cook healthy, affordable, and delicious meals here helping to empower other families to learn about better nutrition and providing them access to healthier food at a price they can afford. From monggo soup and sinigang to lumpiang toque and dynamite, the Café is growing a reputation for delicious food outside of the area too!

The Fairplay Cafe has catered to offices, training clinics, and other events throughout Metro Manila. The healthy food is more filling and that the vegetable-based dishes taste so good comes as a surprise to many people.
