

The Story of the FAIRPLAY CAFÉ

The Fairplay Café began as a way to supplement the nutrition of the children in Fairplay's drop-in center. Hungry kids don't learn well, and we made sure our learners had school lunch. These lunches had to be healthy, affordable, and taste great as kids have the pickiest palates and they're not afraid to say what they really think.

With this as our training ground, our expertise and capacity has grown and now we are catering for events with hundreds of people in offices and companies throughout Metro Manila. Proceeds from the Fairplay Café create livelihood in the community and support the education of children in our School. This means hiring the Fairplay Café for your event is good for your stomachs, good for your wallets, and good for the community.

So if you and your family, group, or company are looking to try something new then check out our menu and our services. The Fairplay Café has catered for offices, sports clinics, training events, and more, throughout Metro Manila. Contact us for a custom order based on your needs and your budget.

The Fairplay Café is a social enterprise empowering local mothers in Payatas to cook and cater for the Fairplay School, our Scholars, and now to cater for groups like yours throughout Metro Manila. Our mothers cook healthy, affordable, and delicious meals to suit your diet and your budget. From our version of sinigang and pancit canton, to maja blanca and fresh fruit shakes, everyone has their favourite.
